Announcement for MD Residents regarding Municipal Address Signage

The Municipal District of Big Lakes would like to inform residents that much of the Rural Addressing Program signage has gone in the ground. Though there are still signs to be posted, those who have a sign are now responsible for their maintenance.

Maintenance of the sign will be to ensure that there are no obstructions preventing the sign from being visible from the road.

The signs can be moved from their installed location but **they must be visible from the road**. Should you wish to move the sign, please contact the MD to ensure that the new location will comply with the Bylaw.

If your sign is removed, stolen, or damaged, contact the MD as soon as possible to inform them.

Questions and concerns can be directed to Chris Klayh at the MD of Big Lakes office.
